

**The Mini Panel is an easy way to access commonly used items without taking up much space on the screen.**

The panel can be shown by selecting **Mini Panel** from the **Utilities** menu.

The mini panel will be open when FlightGear is restarted if it was open when FlightGear was closed.

The options on the Mini Panel are as follows:

- |   |  |
|---|--|
|   | <b>X</b> Close the Mini Panel                            |
|  | <b>?</b> Access this help document                       |
|  | <b>A</b> Show Aircraft Configuration                     |
|  | <b>C</b> Show Control Panel                              |
|  | <b>=</b> Show Checklist Dialog                           |
|  | <b>&lt;&gt;</b> Switch tanks between left and right wing |
